# Project Description

This report delves into the captivating realm of India's Agricultural cultivation, providing a comprehensive visual exploration of key aspects and trends in the agriculture sector.

Through the visual representation, readers can gain valuable insights into crop production, seasonal variations, regional distribution, and overall production trends.

These visualization enable intuitive analysis, allowing stakeholders to uncover patterns, identify areas of growth or concern, and make data-drive decisions.

### Identifying stakeholder behaviors

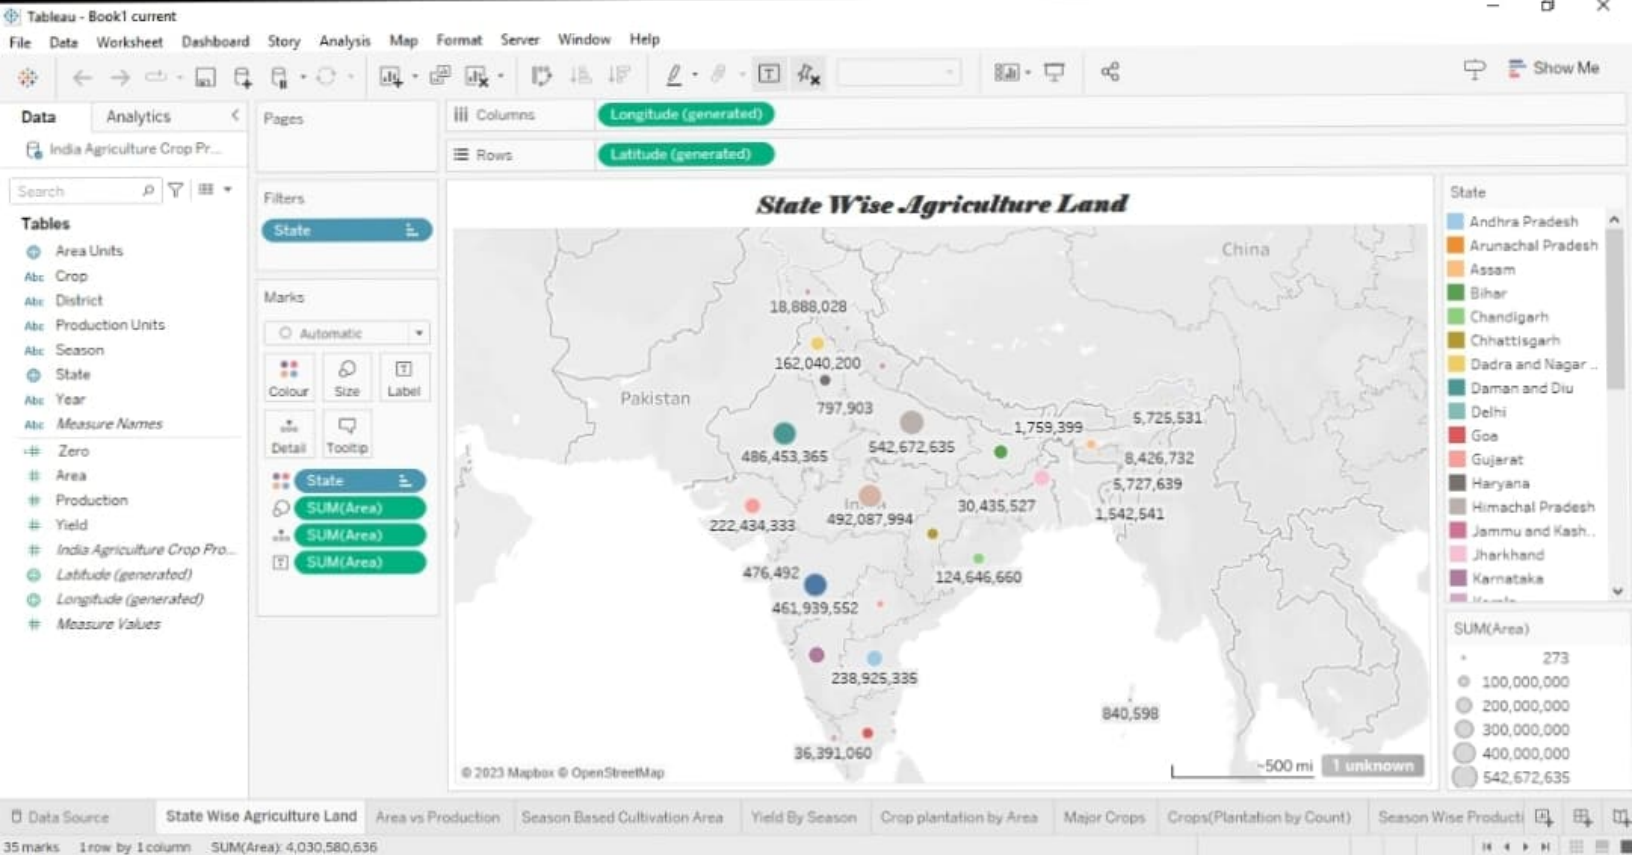

Report is

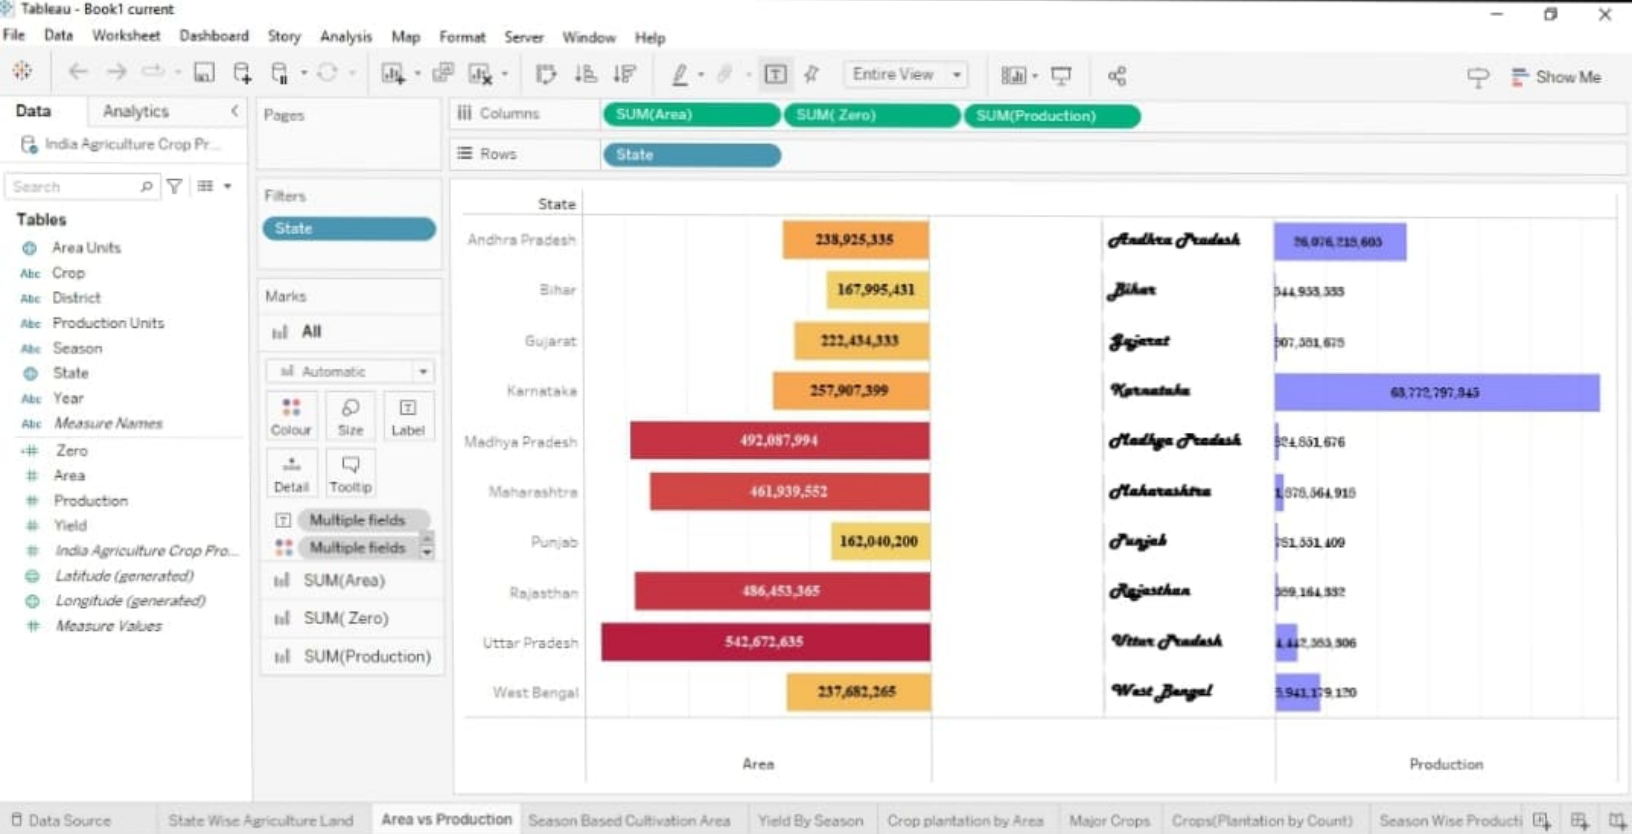

Page 10 of 10

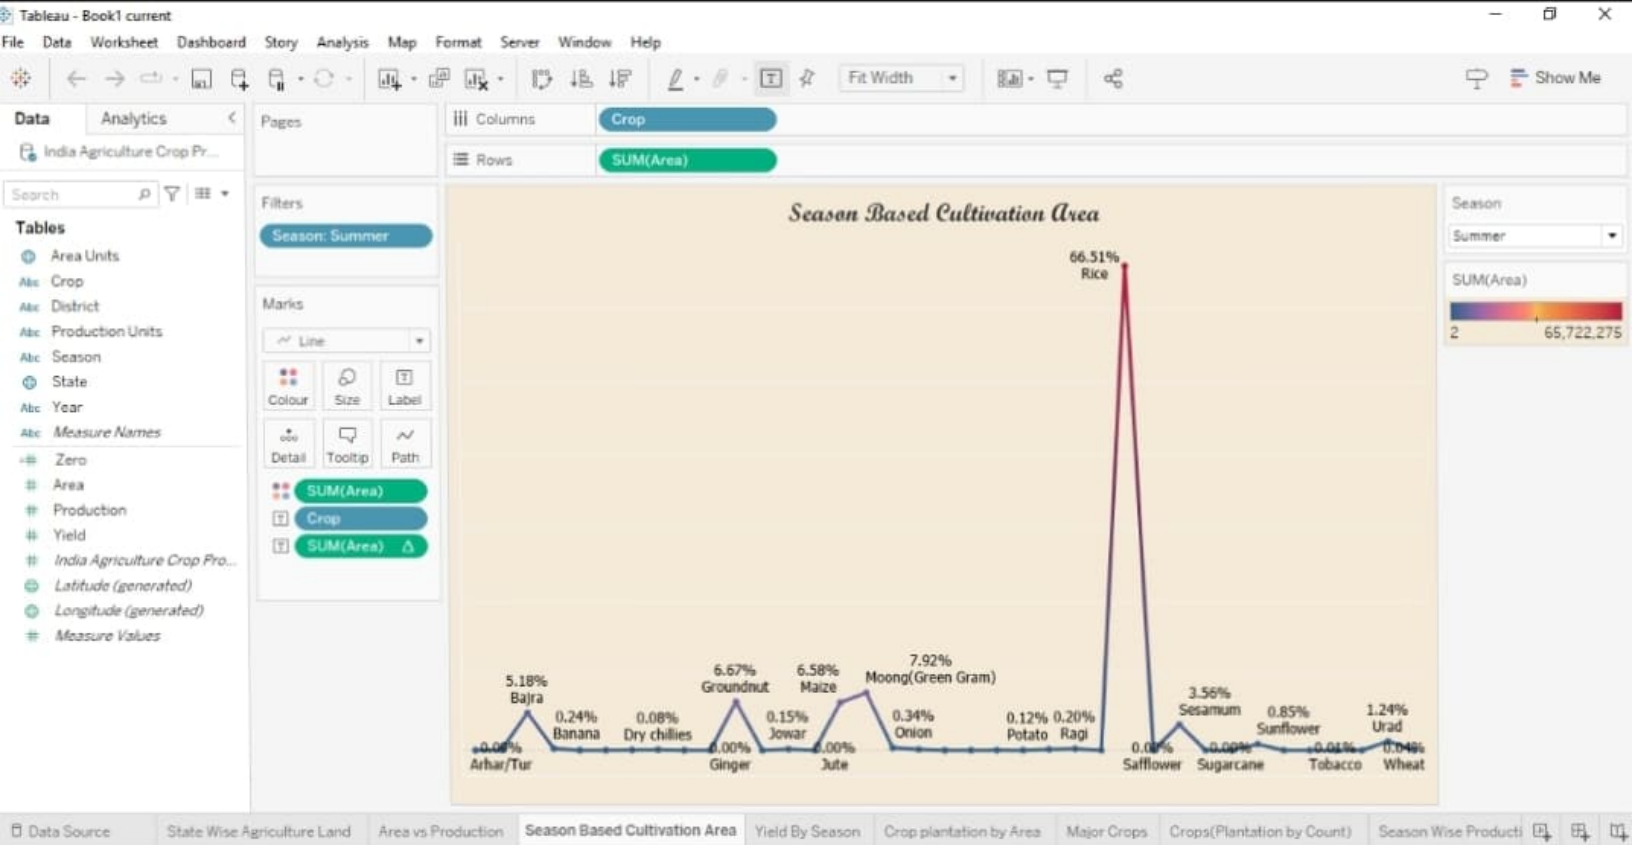

NAME	DATE	TIME

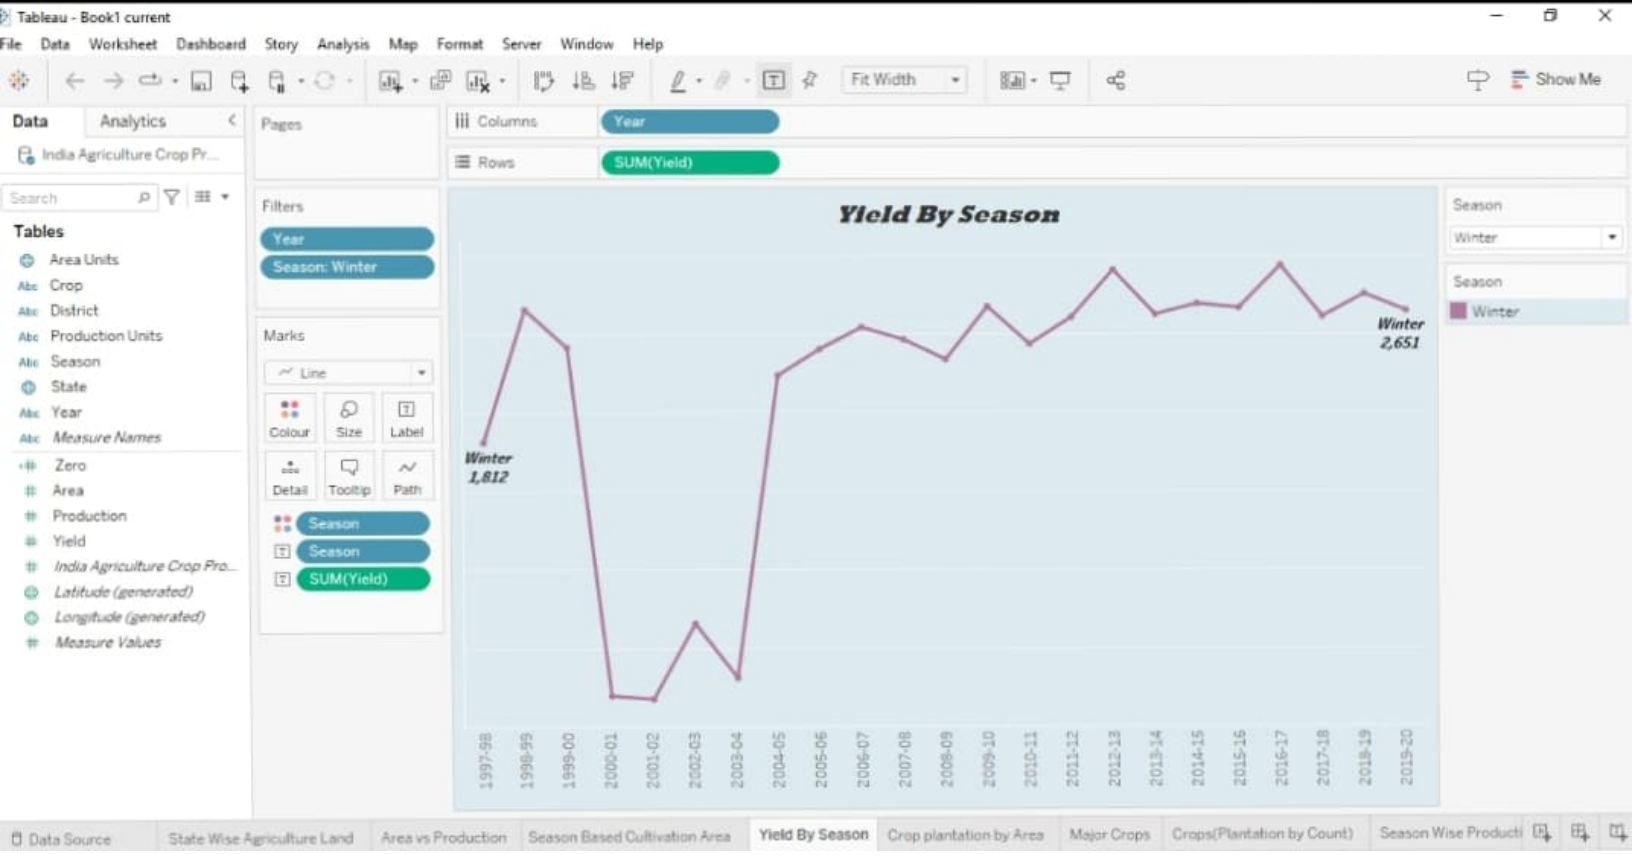

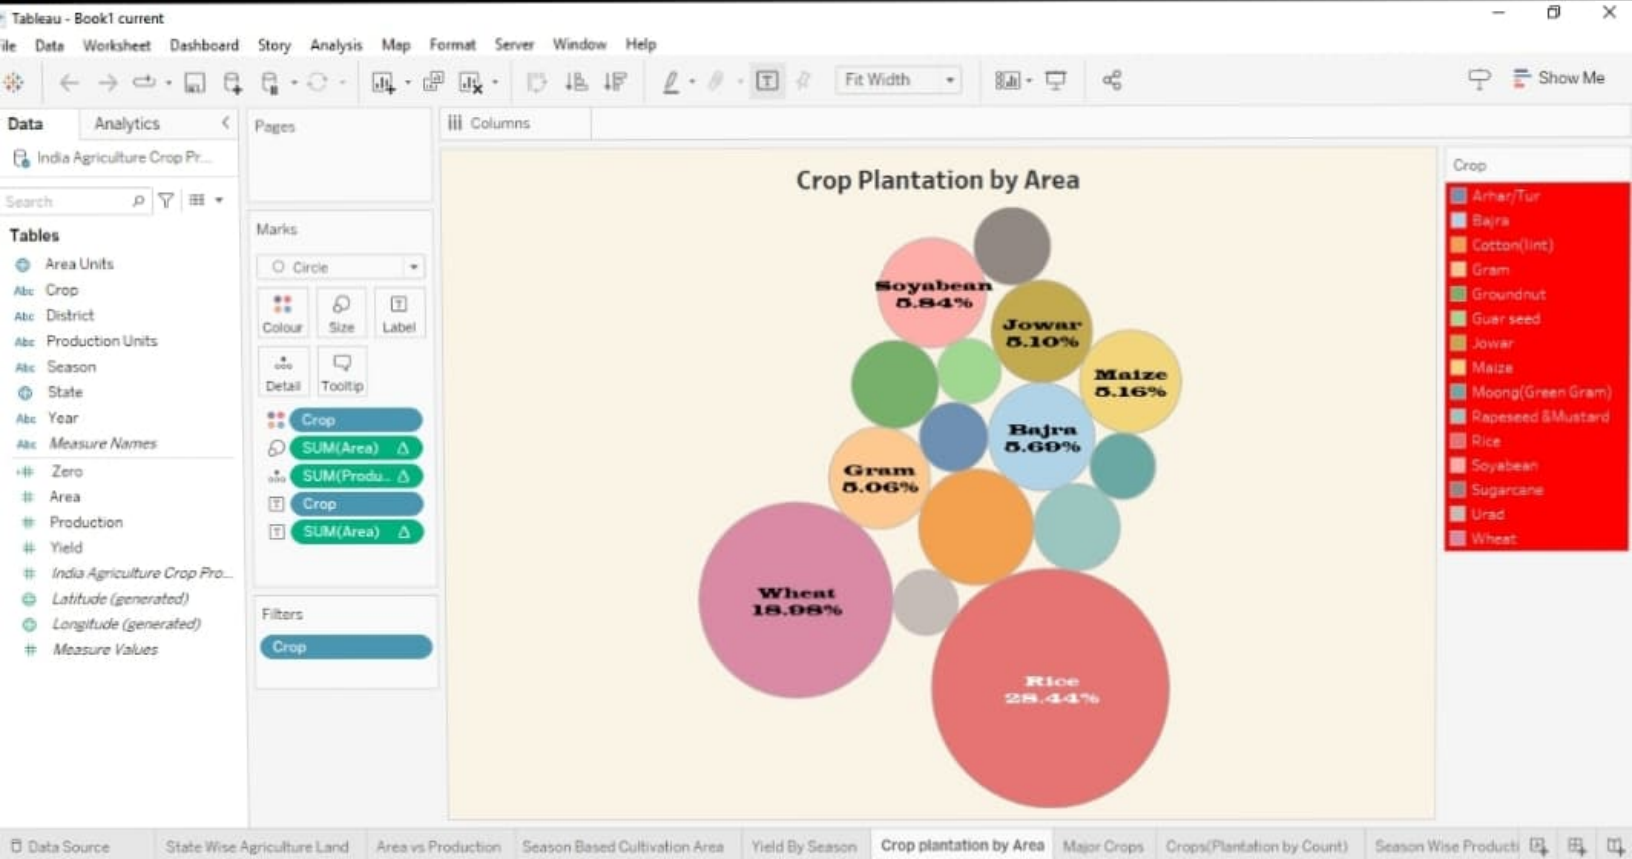

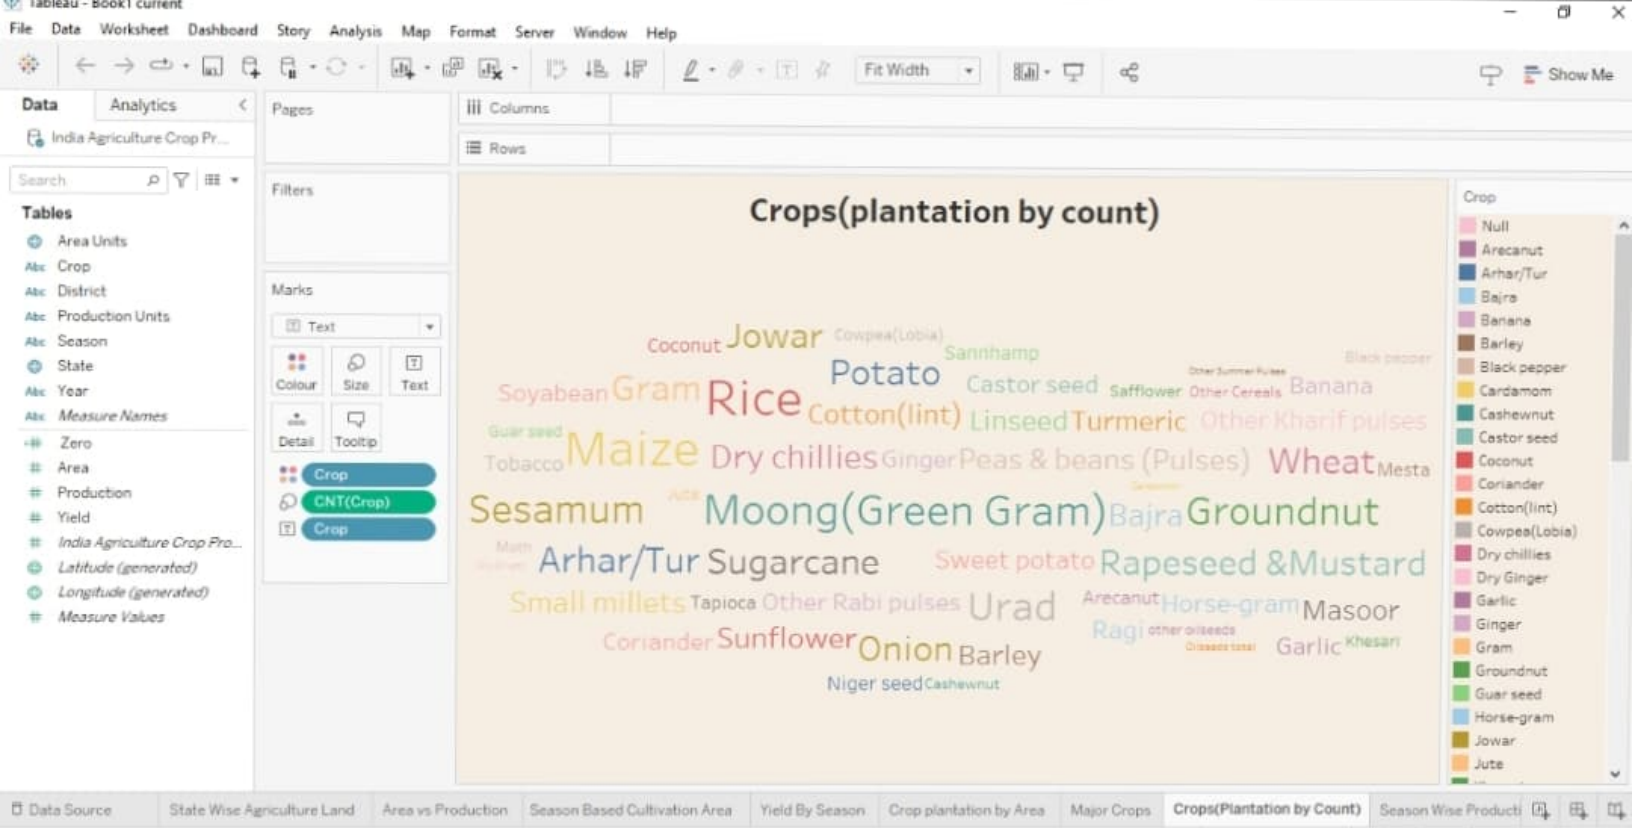

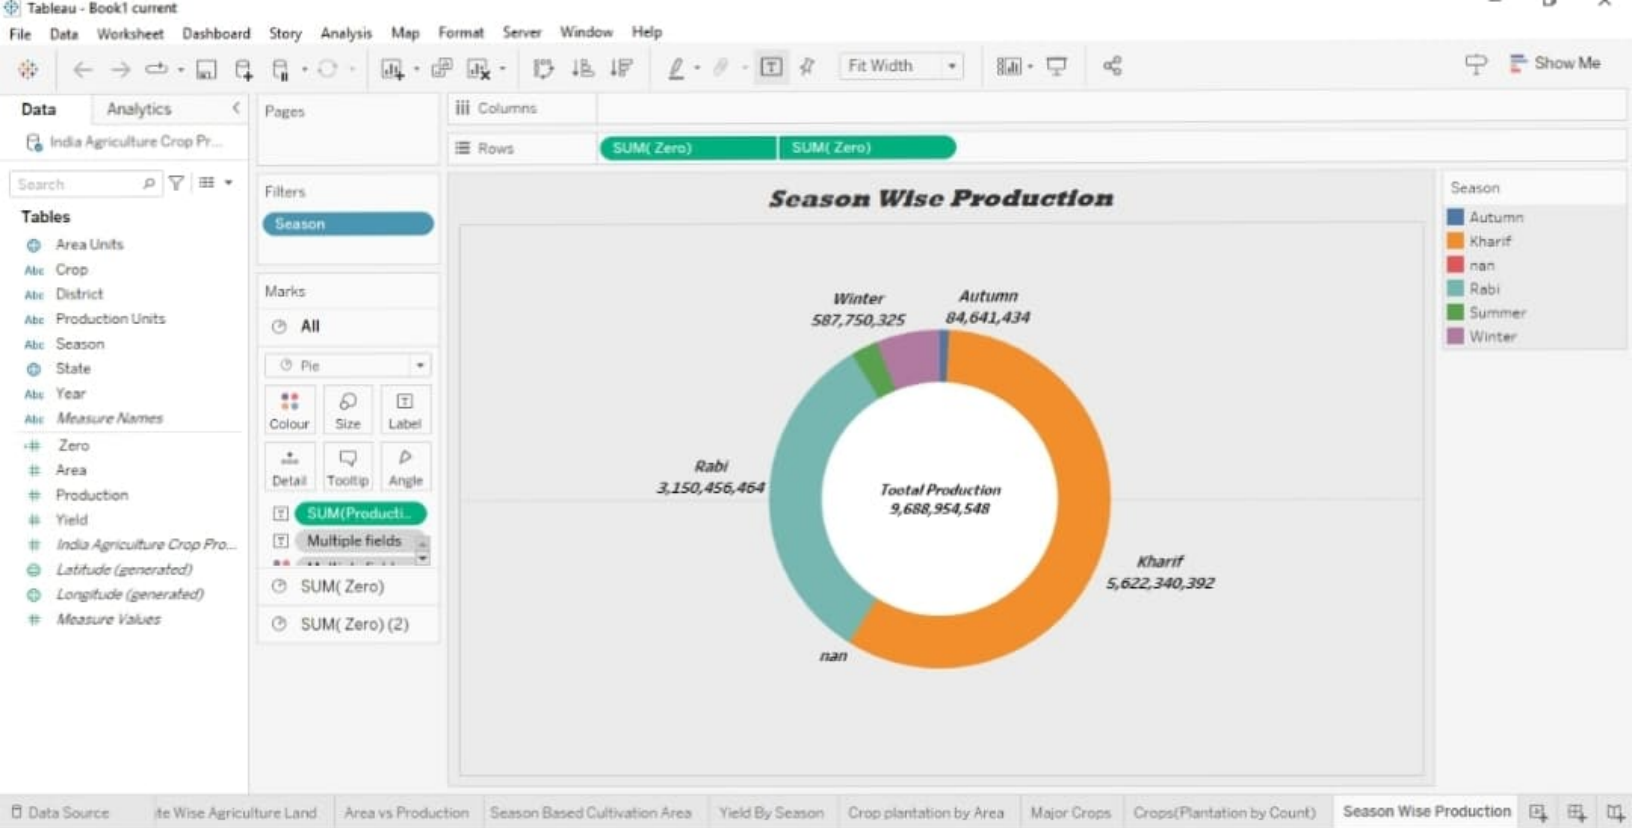

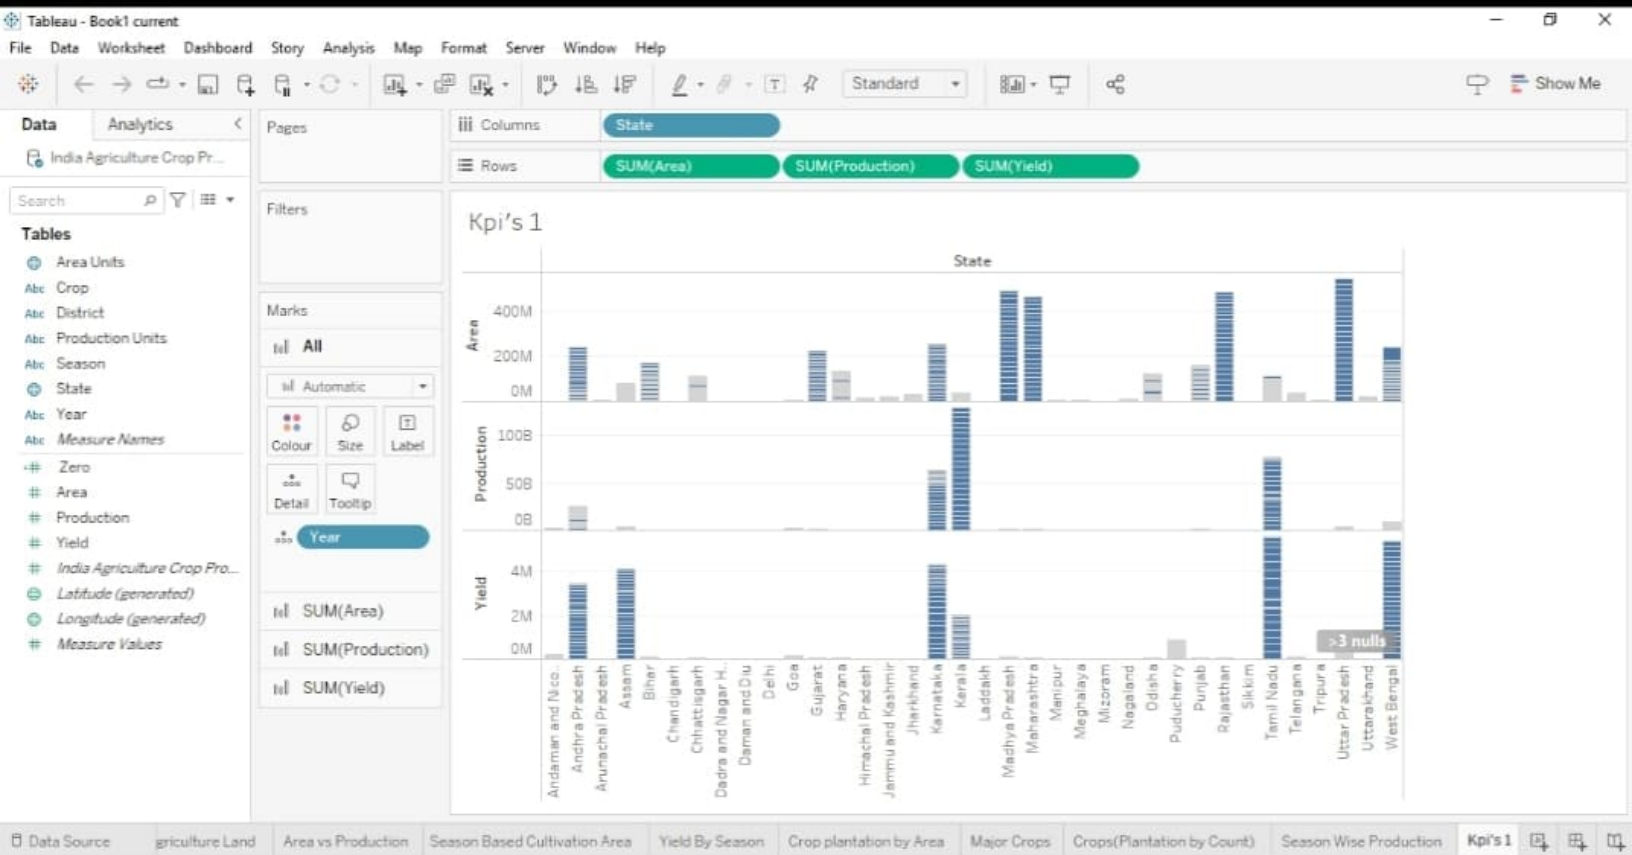

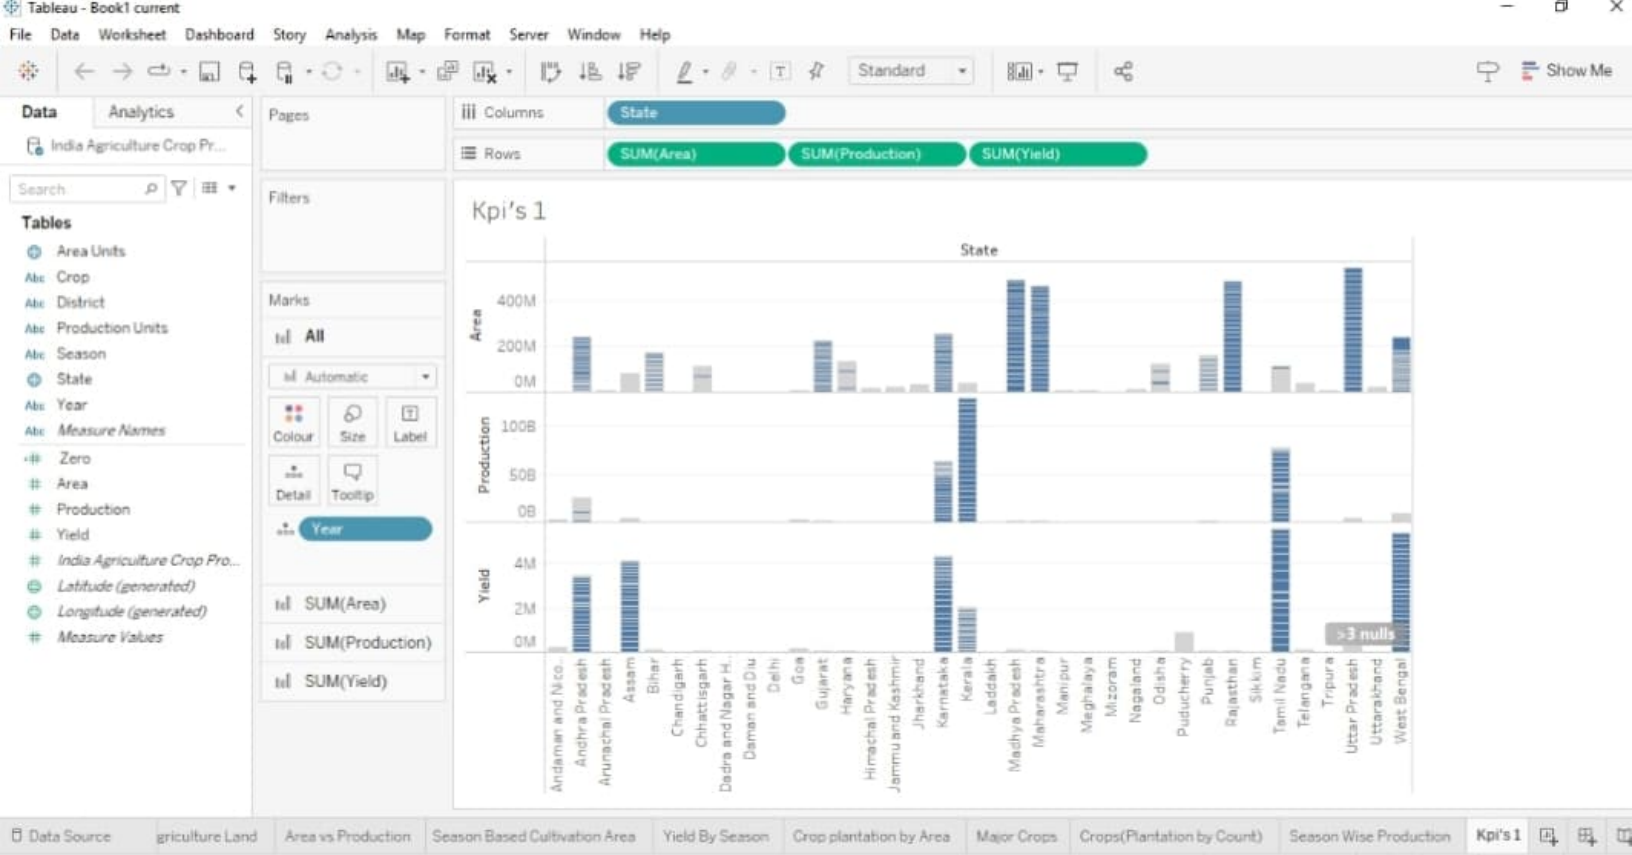

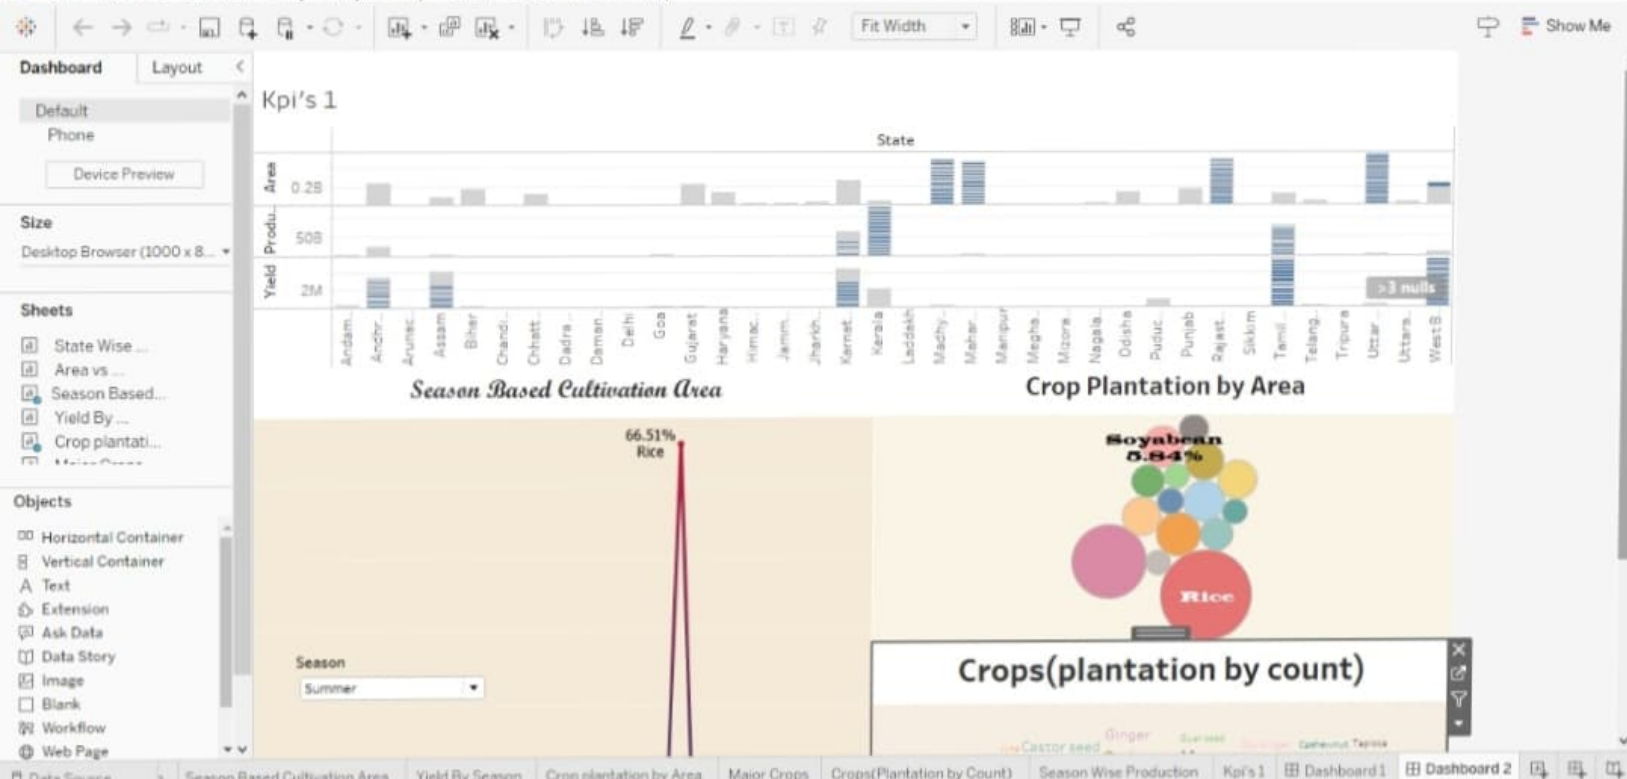

## Yield By Season

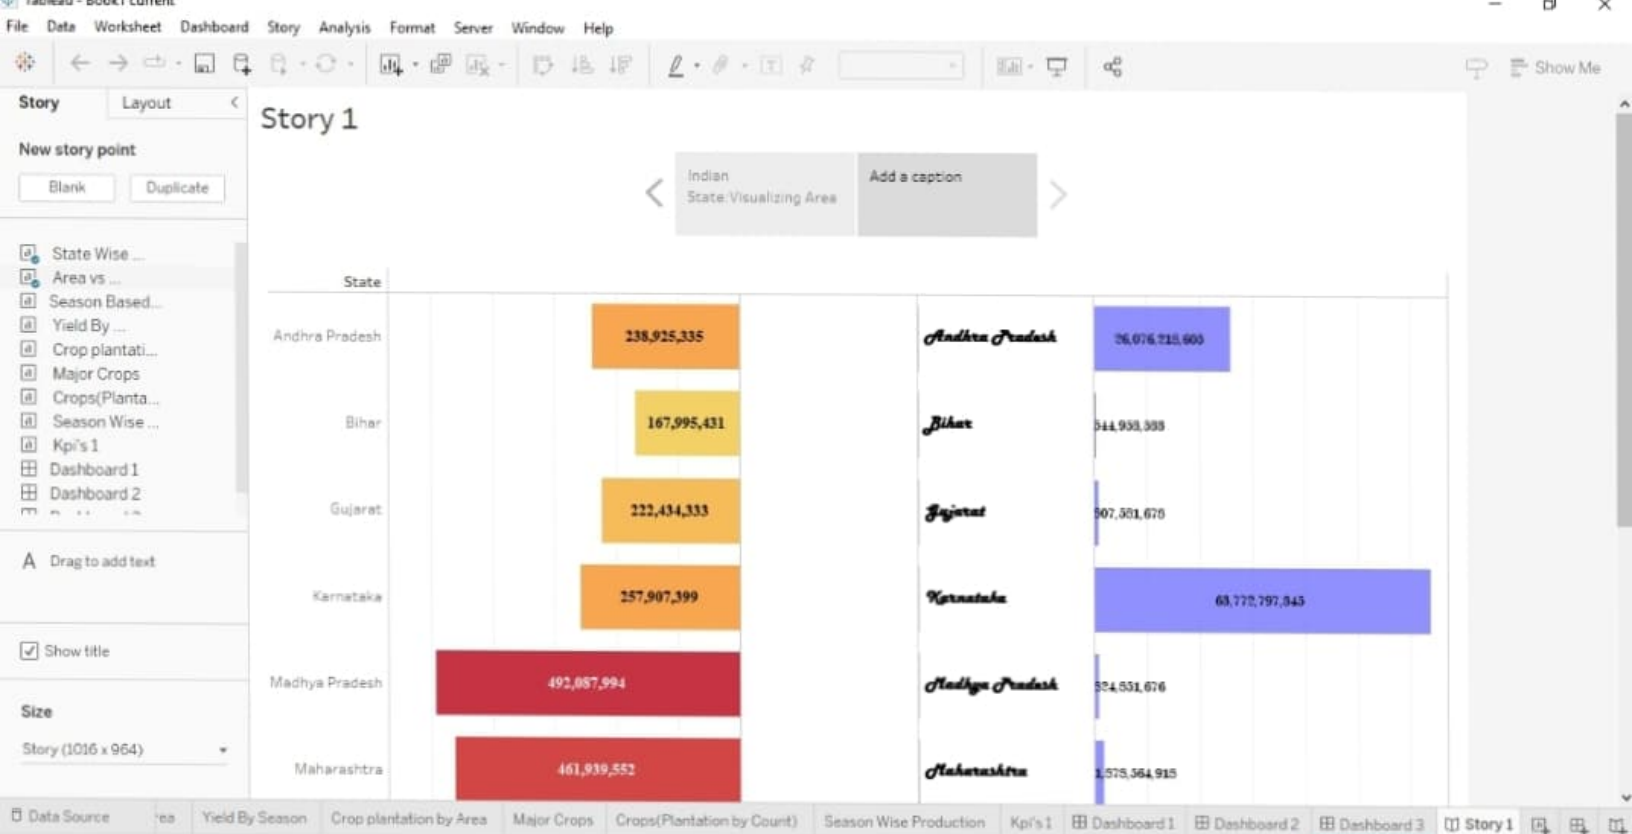

## Major Crops

## Season Wise Production

Story 1

# Advantages

Through the visual  
representations readers  
Can give valuable insights  
into crop production

User friendly in environment

Purely hydrated crops are  
cultivated and sold to the users

# Disadvantages

Seasonal variations  
is the main defect

It enable the visualization  
of intuitive analysis

Amount of interest is high  
when compared to the profit.

# CONCLUSION

We start empathy and brainstorming through mural.com

We developed worksheet, dashboard, story using our project data set collect.

Open tabblue public account for my team

And I uploaded all my Worksheet, dashboard, story on my tabblue public account.

And we make a project report for Indian's Agricultural crop production Analysis project

Finally all my projects has been submitted in my git hub account
